

Asckey has 20+ years experience of NHS Facilities Management with our cleaning audit management tool fmfirst® Cleaning, a cloud-based cleaning audit software tool used by NHS Trusts up and down the country. fmfirst® Cleaning simplifies and supports the undertaking, reviewing and reporting of audit processes.

## Designed for NHS Cleaning Compliance

This application is designed to operate in accordance with the requirements of both the National Specifications for Cleanliness 2007 and PAS 5748:2014 and in addition, its functionality will help to support the current Care Quality Commission guidelines and Standards for Better Health core standards compliance.

The effective management of cleaning standards underpins infection control within the NHS. Our fmfirst® Cleaning application enables Trusts to both prove compliance with the highest level of cleaning standards and quickly provide the basis for rapid fault rectification if required.

No single system can handle all of the functionalities related to Facilities Management. fmfirst® cleaning can be fully integrated with the fmfirst® Estates module.

## fmfirst® Cleaning Benefits

- Ensures compliance to National Specifications for Cleanliness 2007
- Enables compliance to PAS 5748:2014 standards
- Intuitive audit process; clearly defined responsibilities & actions
- Instant fault reporting & option for rectification
- Comprehensive reporting capability, including 13 week report & dashboards
- Permanent, fully staffed support desk
- Cloud-based cost savings; fully web-enabled
- Multi-platform and device compatibility
